

Reno Wins Out-RELAY RACES-Carson Loses

The prettiest and cleanest race ever ridden in Nevada gives Reno another notch on the handle of its gun and another scalp in its belt

ANOTHER beautiful trophy adorns the collection in the club house of the Reno Wheelmen. It was won Sunday after a hard contest from the Oakland Wheelmen, doubtless the strongest team that California can produce. It was a hard race from start to finish, offensive on the part of the home team, defensive on the part of the visitors. It was difficult for Reno to jump the Oakland men and even harder for the visitors to close the gaps.

The race was run in the presence of sixteen hundred people at Agricultural park Sunday afternoon. They were all interested in the race, deeply so, but not excessively enthusiastic. There was a cause for this. Renoites have grown so accustomed to victory that they are coming to take it as a matter of course. Never has a visiting team jumped a Reno rider. Rarely has a home rider had to defend his position. It has always been a case of holding on to the opposing rider or getting away from him. That is why the grand stand did not tear the grand stand to pieces Sunday when the Reno riders broke away and closed the gap to the mile. They realized that the crippled team rode to glorious victory with straining muscles and overworking heart, and they are grateful to the boys who trained so conscientiously and so hard.

There was no annoyance and no discomfort in getting to and from the grounds. The Nevada-California-Oregon railway company handled the crowd with ease.

One thing the crowd of people missed was the exhibition quarter mile that Harry Scheeline always rides, but the little mascot was out of town and the crack of the starter's pistol was the sole introduction to the best fifty mile race ever ridden in this city, and there have been many good, exciting contests here.

J. Williamson and George Kornmeyer came to the scratch. Around the track they pedaled and around again. The race was still no race. The riders chatted to each other and the crowd could hear "Dutch" repeatedly berating his companion for not coming up to set the pace and the latter telling the "butcher boy" what he would do to him if they ever rode in Oakland. Finally the Reno rider got down to cases and jumped time and again, but Williamson immediately closed in. The finish of the fifth mile was very pretty. The riders sprinted their level best, but Kornmeyer came in first. Sam Hancock fell victim to Ole Peckham, the "terrible Swede." The former had the misfortune to swerve slightly on the home stretch. This was the opportunity Ole was looking for. He leaned over the handle bars and entered upon a terrific and continued burst of speed.

Although riding in championship form, Hancock could not close in and the relay ended with Ole fifteen seconds to the good.

Art Peckham had what is commonly termed a "sago" on G. Bergner. He put all sorts of distance between himself and his opponent in the next five miles. This was the fastest relay in the race thus far.

"Kid" Updike rode against a good man, J. Hurat, but he beat him a quarter of a minute in making the five rounds of the track. Young Updike is riding his first season, but he has a cool head and a steady heart as well as muscles of steel. Perhaps the fact that he gets instructions from the corner at the sixteenth post has something to do with his good work.

Willie Kornmeyer made a gallant ride and the gap was nearly closed when he finished. H. Hancock, his opponent, was not in the best of form, while Willie was fit as a king. He was loudly applauded.

Granville Johnson and E. Holden were the next companions in misery. This was another tail end chase, Johnson creeping up gradually. In all he gained twenty seconds, which meant something over a sixteenth of a mile. It now began to look like "curtains" for the visitors, even if the best riders had been kept for the last. Cyclone met with his usual glad acclaim when he walked to the dressing room.

William Kornmeyer made the best gain of the day in point of time, the official scorer putting him 52 seconds to the good. Willie had his opponent in view on the finish. H. Hancock, the man who rode against him, was pretty tired when he finished the five miles.

Now came the sensational ride of the day. What the crowd likes to howl over is the closing of a gap. Hart made it an even mile and could

Relay teams from the Capital cities of California and Nevada ride a close and exciting race, but the Golden State sprinter crossed tape first

CARSON CITY lost to Sacramento yesterday by a lamentable error in judgment. According to the News, which arrived last evening, the race was Carson's up to the last quarter of a mile. The loss of this honor is felt in Reno almost as acutely as in Carson for the Reno Wheelmen and citizens generally were eager for Carson to win. At the race track Sunday before the Oakland-Reno race began there was an announcement of even money on Carson, but no Sacramento takers were in sight. The Carson boys rode splendidly, covering the fifty miles in 2 hours and 18 minutes. The News' account is too long to publish verbatim, but the following introductory and description of the decisive relay are given.

The great race for the championship of the Pacific coast has taken place and the California boys took it back home with them last evening. The shape of a solid silver loving cup from Shrieves. It was a great race and while Carson City regrets the loss of the championship when it seemed within her grasp, she lost it to the best lot of fellows in the business.

Saturday evening a special train went to Reno to meet the Californians and took the band along, to whoop it up. The car bore the banner "Welcome Champions." The Sacramento boys arrived thirty-four strong, instead of fifteen, as expected, and the compliment thus paid the Carson City boys brought forth cheer after cheer. Just as soon as the baggage could be transferred the special pulled out for this city, arriving at about 11 o'clock. The depot platform was jammed with people who cheered to the echo. The street was illuminated with bon-fires and the line of march was quickly formed with the band at the head of the procession. All the way down the street the visitors were given a true Nevada welcome—noisy but sincere. A lunch was spread for both teams and notwithstanding the lateness of the hour a jolly forty minutes was spent.

Early yesterday morning our guests were astir, and they found the town their own. Even the usually irrepressible small kid was imbued with the general desire to treat the champions properly and made no fresh remarks. A big crowd was in attendance at the race, and the applause which greeted the visitors was equally as strong as that which was showered upon the boys of the home team.

Wm. U. Mackey was appointed referee, to represent the N. C. A.

An exhibition mile run on a tandem was made by two of the Sacramento boys and they succeeded in covering the distance in 2:02 and a fraction. The official time made it a second slower. There was little delay and al

two o'clock the race for the Pacific coast championship started with Hilton for Carson City and Sickafosse for Sacramento.

Last relay. Wing and Venter riding easy. For the first time in three years Carson has a race just where she wants it—Wing to finish. The Sacramento boys have lost interest in the race. Many of them are leaving the course. They can see no chance to retain the championship. "Four to one on Wing," is getting no takers in the grand stand. The riders ride four very slow miles and the turn on the last mile they are barely moving, getting ready for the finish. Wing has dropped back 100 feet at the head of the stretch. Mr. Upson of Sacramento is saying to his riders, "Boys, that looks like the end. That means a flying jump. Why in the world does Venter let him get that position. We are gone." Still the riders are barely moving, but they have entered the stretch, and are nearly the three-sixteenths pole. "Wing ought to jump now, or else close up a trifle," said a Sacramento rider. But Wing still keeps 100 feet or more behind. The tension on the nerves of the grand stand is telling, and as the two men on whom rests the championship of the coast continue to crawl down the stretch, breaths are being held.

Venter looks behind, and sees Wing about to make the jump. Venter is away like a flash. He is riding an 84 gear wheel, while Wing has a 96. Wing was just a fraction of a second late in his jump and the low gear of his opponent gives him 150 feet at less than an eighth from the tape. And still Carson is confident. They are coming at a furious rate, Wing gaining by yards on his man. At fifty feet from the tape Wing is fifteen feet behind. At the finish he is less than a wheel. Sacramento is thunderstruck for a moment. The unexpected has happened. "An error in judgment on Wing's part," says Upson. "I rode

BIG WAR GAME SENATORS TO BE TODAY THE FINAL ABOUT TO BEGIN TRIALS ARE TO BEGIN

Military Manouvers Will be Held on a Large Scale off the Coast of Maine--Will Begin in a few Days and Continue till Aug. 15

WASHINGTON D C July 27--Never before in the history of the United States have military manouvers been held on such a large and comprehensive scale as those which are about to begin off the coast of Maine. First, two immense fleets comprising the flower of the navy, will combat for supremacy, one representing an American squadron defending a port on the American coast, and the other, an enemy attempting to capture the port or so eluding the watchful eye of the home fleet as to afford an opportunity to prey on the coast commerce of the country.

At the close of this so-called search problem the representative American squadron and the former enemy will combine forces under the command of Rear Admiral Barker, and, forming the largest and best equipped fleet of warships that has ever been mobilized off the coast of the United States will swoop down upon Portland harbor, Maine, and will endeavor by all means known to naval strategists to prove that the army land defenses of that important port are unable to withstand the attack of a fleet of this strength. Such are the general features of the monarch movements that have been planned under the direction of the most capable and best known army and navy officers of the United States.

Today the powerful north Atlantic squadron, comprising some of the most efficient fighting ships in the entire world, will rendezvous at Frenchman's Bay, on the coast of Maine with the coast squadron under command of Rear Admiral Sands the training squadron, under Rear Admiral Wise and the Caribbean squadron, under Rear Admiral Coghlan. Next week Rear Admiral Barker the commander-in-chief will divide his fleet and the search problem will begin. The details of the problem will not be announced until just before the beginning. The search problem will end on August 10. Then there will be a reconciliation and the squadron will again meet in Frenchman's Bay to coal, proceeding thence to Long Island Sound for a cruise and for tactical exercises.

On August 15 a most spectacular inspection of the immense fleet will be made by the President of the United States the Secretary of the Navy and Admiral George Dewey off Oyster Bay. After the review by the president the fleet will again proceed to the coast of Maine for tactical exercises and to take in the joint manouvers with the army.

Seattle's Labor Carnival
SEATTLE Wash July 27--The carnival under the auspices of the Western Central Labor Union for which preparations have been in progress for several months opened today in a blaze of glory. The carnival is the most ambitious affair of the kind ever attempted in this section of the country. A large area centrally located has been set aside for carnival purposes and here are elaborate exhibits made by merchants and manufacturers, as well as by the labor organizations. In addition to these displays there are numerous features of entertainment in the way of athletic and vaudeville shows. Probably the most interesting feature of the two weeks programme, however, will be the aquatic contest and the various parades and pageants.

Ohio State Tennis Tourney
CLEVELAND, O. July 27--The leading tennis organizations of Ohio have sent representatives to Cleveland for the annual state championship tournament, which is to be played this week on the courts of the East End Tennis Club. The events consist of men's singles, men's doubles, consolation singles, consolation doubles, and ladies' singles.

TRIAL MOST INTERESTING HELD IN MANY YEARS

Numerous Visitors are Arriving in Jefferson City to Attend the Session of the Court

JEFFERSON CITY, Mo., July 27--The term of the circuit court which began today is likely to prove the most interesting of many years, as the four state senators indicted on charges of accepting bribes to accomplish or defeat legislation are to be tried. The indicted senators are William P. Sullivan of Christian county, Buell Matthews of St. Louis county, F. H. Faris, of Crawford county and Charles A. Smith of St. Louis city. The expectation that former Lieutenant Governor John A. Lee and several other politicians of widest prominence will be brought into the net before the term of court is ended adds to the general interest of the proceedings. This interest is already being manifested by the arrival of numerous visitors and it is expected that within a few days the number of visitors in the city will be as large as that attracted by a session of the state legislature.

Reform Party Conference
DENVER, Colo. July 27--The proposed consolidation of the Populists, Bimetallists, and Modern Socialists, it is hoped by the promoters of the movement will be consummated as an outcome of the national conference in progress here today between representative members of the organizations concerned. The movement is designed to embrace all the so-called reform elements and the primary aim is to overthrow the old parties. Bimetallism government ownership, anti-imperialism and the initiative and referendum are some of the political tenets to be included in the political platform of the new party. Prominent leaders whose names are mentioned in connection with the movement some of whom are here in person while others have sent letters embodying their views, are D. Benjamin Andrews, president of the Nebraska University, Clarence S. Darrow of Chicago, Geo. Fred Williams of Massachusetts, former Governor Poynter of Nebraska, and Edward Atkinson of Boston, president of the Anti-Imperialist League.

Alumni of Old Academy in Reunion
MT GILDAD O July 27--Though Hesper Mount seminary flourished for more than half a century and in its time was a famous educational institution no reunion of its alumni was ever held until today, when former graduates and students gathered from a number of states to join in a celebration of the ninetyeth birthday of Jesse Harkness the founder of the institution.

Hesper Mount seminary was one of the earliest educational institutions of the West as well as one of the most prominent until years after the erection of Ohio Wesleyan University and Oberlin college to both of which it was a conspicuous feeder.

Jesse Harkness who came to this locality from New Hampshire and founded the seminary in 1844, retains his strength and faculties to a remarkable degree. He has always been a devoted student of the Bible, having read the good book through by courses nearly two hundred times, and is at present averaging thirty or more chapters each day.

Very Remarkable Cure of Diarrhoea.
"About six years ago for the first time in my life I had a sudden and severe attack of diarrhoea," says Mrs. Alice Miller of Morgan, Texas. "I got temporary relief, but it came back again and again, and for six long years I have suffered more misery and agony than I can tell. It was worse than death. My husband spent hundreds of dollars for physicians' prescriptions and treatment without avail. Finally we moved to Bosque county, our present home, and one day I happened to see an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy with a testimonial of a man who had been cured by it. The case was so similar to my own that I concluded to try the remedy. The result was wonderful. I could hardly realize that I was well again, or believe it could be so after having suffered so long, but that one bottle of medicine, costing but a few cents, cured me." For sale by S. J. Hodgkinson, Druggist.

The Three Candidates for the Defense of the America's Cup Against the Shamrock III Will Compete for the Honor Today

NEW YORK, July 27--After preliminary skimming extending over the last few weeks the three candidates for the defence of the America's Cup--Reliance, Constitution and Columbia--are to have it out off Newport beginning today, with a second race on Wednesday and a third and final contest on Saturday of this week. So far the Reliance has displayed a marked superiority over the other two craft and no doubt exists in the minds of yachting experts that the Challenge Committee will pick the new boat to defend the coveted trophy against Shamrock III.

Trial of Jett and White
CYNTHIANA Ky July 27--The special term of the Harrison circuit court to try Curtis Jett and Tom White for the murder of James B. Marcum convened today with Judge J. J. Osborne presiding. Although no disorder is expected it has been deemed wise by the authorities to detail a small guard at the jail and to insure the safety of Ewen, the chief witness for the prosecution, and against whom threats of assassination have been made.

ORDINANCE NO. 7 AMENDED BY COUNCIL

The New Measure, Which Is of Very Great Interest to Reno's Business People, Will Be Published in The Journal Tomorrow

The City Council took action last evening that will be welcomed by the license payers of Reno. Ordinance No. 7, which created so much discussion when it was promulgated, has been amended and certain portions repealed. Ordinance No. 8, in which this amendatory action was taken, was read for the last time and passed by council by a unanimous vote. The ordinance will appear in full in The Journal tomorrow morning. The document is now in such shape that it is almost above criticism, something that can be said of the revenue bill of few cities.

The council meeting last evening was attended by all the aldermen. In the absence of Mayor Turrill, Councilman Wilson officiated as mayor pro tem.

C. J. Brookins appeared and asked that his license be lowered. The request was referred to committee.

Mr. Harley and others petitioned for an arc light at the corner of North and High streets. The petition was placed on file.

The matter of enlarging the sewer in Douglas alley, adjoining The Journal building, and which drains a large section of the city, became choked Sunday morning and the stream backed into the pressroom of The Journal.

Council then took a recess until this evening.

AN UNWELCOME FLOOD

An Overcrowded Sewer Finds Vent In Journal Pressroom

The sewer which extends down Douglas alley, adjoining The Journal building, and which drains a large section of the city, became choked Sunday morning and the stream backed into the pressroom of The Journal.

Officer Douglas put the chain gang to work assisting the office force and in a couple of hours the place was gotten in shape. The city council last evening took action to have the sewer enlarged.

The Passenger Lay Over

The news was given out some months ago that on July 1st the passenger crews would make Reno the layover point. Arrangements could not be completed by that date and it is now believed by trainmen that they will make Reno their homes after August 8th. At all events a number of the boys have been here during the past week or two looking for accommodations.

Gave Way Successfully

The Reno Wheelmen club band had arranged to give a concert and dance Thursday evening and had already gotten out dodgers for the event, but when the matter of a benefit for "Clan" McKenzie was suggested they willingly gave way. The band should certainly be well patronized when its dance is given. The proceeds are to be devoted to the uniform fund.

Congratulatory Telegrams

The Reno Wheelmen Club is in receipt of a number of congratulatory letters and telegrams over the victory Sunday. President Brandon and Mascot Scheeline were the first to be heard from and the tone of their telegrams evidenced that they were jubilant.

Will Rebuild Immediately

H. Jud Allen, proprietor of the livery stable that was recently burned at Wadsworth, was in Reno yesterday purchasing harness and other supplies. He will rebuild the stable immediately. His blacksmith shop, which was also destroyed, has been rebuilt and is already in operation.

The United Brotherhood of Railroad Employees will hold an open meeting this evening in the old Wheelman's hall. All railroad employees are invited to attend and perfect an organization. The national body has 33,000 members.

State offers in evidence report of ticket sales for January 19 and 20, 1903; three tickets and one revolver ordered admitted. Prosecution rests. Defendant Phillips, by his attorney, moves to dismiss as to him, on the ground of insufficiency of evidence. Motion denied. Following witnesses were then examined on behalf of the defendants: Frank G. Folsom, Thos. Branton, Wm. Cliff, Henry Riter, A. Burndies, R. Simpson, Thomas Biggs, Harry Butts, H. Speers, Lottie Carson, H. Askins, T. J. Allen. Continued to July 28th at 9:30 a. m.

In re estate of Mary Crawford, deceased, continued to August 18 at 10 a. m.

State of Nevada vs. Pat Heron, murder, ordered continued to August 17th, 1903, at 10 a. m.

In re estate Henry Beaglehole, deceased, hearing of petition for letters of administration by Eva M. Beaglehole and contest thereto by F. C. Updike, public administrator. Petition of public administrator denied.

Prominently Mentioned

In the leading editorial in last evening's Gazette appears under the heading, "Pope Leo's Successor," strong recommendations of C. A. Harl, Abe Steckle, Ivan Steckle, Eddie Lunsford, Herbert Conway, Gene Pendergast and Louis Payne for the position. While The Journal unites in boosting these young Renolites, it fails to understand the Gazette's reason for ascribing to them simple the virtue of athletic ability.

Gone to Take Charge

Jay Clemons left Saturday night for Death to look after his large property interests. He is a member of the great Bradley Land and Cattle Company. The manager, Lou Bradley, has gone to San Francisco in search of health. Mr. Clemons will have charge during his absence. The company will cut 4000 tons of hay this season.

Firm Changes Hands

A deal was closed yesterday whereby one-half of the W-B Grocery Co., owned by Mrs. Banta, was transferred to J. A. Peterson. The firm will continue to do business at the same place and will endeavor to serve their customers and friends well.

Auction Sale

Tonight at 7 o'clock three fine new upright pianos, also all the stock of musical instruments and stationery, including phonographs and records, at the Studio, 134 Virginia street. Terms of sale on pianos cash or \$25 down, and installments of \$10 per month.

Pleasant Picnic

Henry Riter gave a family picnic at Bowers' mansion Sunday. There was a good attendance and everybody heartily enjoyed the day. Next Sunday the Wheelmen will picnic there and take the band with them.

Attorneys in the Case

In the matter of the estate of Henry Beaglehole, O. H. Mack is the attorney for the widow of Henry Beaglehole, and Judge Massey has been retained as associate in the case.

Bowers' Mansion

This historical property, with its beautiful grounds, has been opened as a health and pleasure resort. The most beautiful picnic grounds accessible from Reno.

MRS. LAYTON WRITES
OF MRS. LAKE'S DEATH

She Knew of Her Daughter's Illness,
Which Occurred at the Home of Her Sister in the East

Ashland, Or., July 25, 1903.
Nevada State Journal:

Mr. Wilson, the telegrapher here, who used to live in Reno, sent me your paper with the article about Hattie, my daughter. The article intimates that I knew nothing of it, but I did; I knew of her illness, as she had reached New Albany, Indiana, (just across the Ohio river from Louisville) and was at my sister's home—Mrs. Henry Terstegge. She had every care, two doctors and a trained nurse and they were sending me favorable reports, when suddenly hemorrhages from the throat set in and she died suddenly. In talking with a doctor here I find that ptomaine poison works silently and all at once the crisis is reached. She was cremated at the nearest crematory, at Cincinnati, and her ashes will be placed in the Odd Fellows Columbarium in San Francisco, by the side of her sister, Florence. I thank you for your kind words of her, and sympathy. I shall return to Reno to take up my work the latter part of August.

Yours very sincerely,
ALICE L. LAYTON

A. D. Shane is succeeding in his efforts to hold a race meet at Agricultural Park this fall, the week following the Sacramento State Fair. He has already obtained permission to use the grounds. There are now a number of horses at the track getting in condition for the races.

M'KENZIE IS TO RECEIVE BIG BENEFIT

The Reno Wheelmen Will Show
Next Thursday Evening That
They Appreciate the Injured
Rider and His Good Services

With the usual wholeheartedness that has always characterized the Reno Wheelmen in the treatment of those who have been loyal to them, they will show on Thursday night their appreciation of "Clan" McKenzie's noble efforts by giving to him a monster benefit.

McKenzie, the "gap opener," was seriously injured Saturday night and the Wheelmen will give to him on the night of July 30th a substantial testimony of the esteem in which they hold him.

Mr. McKenzie is now in the Southern Pacific hospital in San Francisco and the Wheelmen want all their friends to be with them on "benefit" night and have a good time, as well as help the worthy cause.

Commencing at 8 p. m., there will be a boxing bout, wrestling and fencing, together with instrumental and vocal music, to last about one hour; after which the evening will be spent in dancing.

The dance music will be furnished by the Wheelman band, a musical organization now famous among the wheelmen of the Pacific coast. Save your 50c and the entertainment committee will relieve you of it or in lieu of that give it to any relay rider.

Three==Piece Suits

Regular coat vest and trouser suits made three and four button single breasted sack, of worsted, rough scotch effect mixtures, stripes and of blue and black thibet, serge and unfinished worsted.

\$10 to \$20

Ask yourself what kind of a suit you want—you'll find it here. The suit which caught your fancy, that you saw on a certain well-dressed man—that's here, too—ten chances to one. No need going into details about all our suits—we could fill this entire paper. It's enough to say that your suit is here—the suit in harmony with your taste and in keeping with your purse. Good clothes talk. Inside facts are of as much importance as outside appearance. You get both in our kind of clothes.

CONSERVATIVE OR RADICAL

THE Montpelier (Vt.) Argus and Patriot in speaking of W. R. Hearst's presidential candidacy, says:

In some respects Mr. Hearst deserves well of the Democratic party. He published a newspaper that stood alone among the great dailies of the east in supporting candidates and platform in 1896. This was not from a slavish submission to the majority but because Hearst was a man of convictions and believed the action of the party was in line with the best and wisest political thought. Since that time he has gone further than his party and has become more radical than Bryan. He aspires to be the representative of the labor element, a worthy ambition, and has succeeded in securing many endorsements from that element. An important article of his political creed is public ownership of public utilities and on this it is to be presumed he will lay much stress.

Public ownership of public utilities is new in politics, though not new in government. The government is committed to this in many ways, not as a distinct principle or policy but as a matter of expediency. Should the issue be taken into politics it would be regarded as new and revolutionary by a large number of the people, by all the conservative element.

Before Democrats endorse Mr. Hearst as a candidate for president and hail him as the great deliverer of labor they should carefully consider what they desire most in the next campaign. If they think they can win with an issue that many will regard as revolutionary, that is certain to be branded as plainly a socialistic movement, or if they are desirous of firmly establishing that issue in American politics, regardless of whether the party wins or loses, then they may take up Mr. Hearst and his ideas. If they desire first of all to drive the Republican party from power and place the Democratic idea in control, trusting to the future to carry those ideas to such an extent as to further benefit the great masses of the people, they will favor some candidate not obnoxious to the conservative element.

If the Democratic party is to gain from the Republicans next time it must make its gains from among those conservatives who have become dissatisfied with Roosevelt and are disposed to look with favor on the Democracy if it will furnish such a candidate as they desire.

This is the plain common sense of the situation. There is no element from which the Democracy, with a radical platform and candidate, can make the gains necessary to success in 1904. All those to be attracted by such issues have come to the party, with the possible exception of some union labor men. There is a large conservative element in the Republican party, displeased and alarmed over Roosevelt and more than willing to support a Democratic candidate of the right sort.

The whole question for consideration is whether Democrats will follow the light of experience with the prospect of success or chase the flickering light of untried ideals to land in defeat.

SMALL KICKERS

EVERY once in a while some newspaper pitches into Congress on account of the free distribution of garden seeds. The papers that do so are of two classes—those that are hired to do so by the seed houses and those that think all public moneys are wasted unless spent in the large cities and for the benefit of the inhabitants thereof. The free distribution of garden and flower seeds will not be stopped until the free delivery of mail is stopped in the cities. Those papers talk as though the government out of its own wealth is forced to give garden and flower seeds to the farmers. Nothing could be further from the truth. How much has the government anyway? Not one cent of its own. It has a whole lot of millions locked up in its vaults but is simply acts as banker for the people; as a custodian of the public funds. Why then should not Senators and representatives vote to furnish the farmers, who own half the money locked up in the treasury vaults, a few packages of garden and flower seeds? It is simply giving back to them a little, a very little of that which the government has taken from them in taxes. It is about all that they get from the government at Washington. They are accustomed to it and they want it continued. The papers seem to think it is all right for the government to spend millions in New York, Philadelphia, Chicago, St. Louis, etc., but they kick at a few packages of garden and flower seeds sent to the farmers.

MEXICO'S WASHINGTON

EVERYBODY in the United States that wishes the Mexican republic well, which includes our entire population is glad that Diaz has consented to serve another term as president. He is the Washington of Mexico and has done as much for that country as "the Father of his Country" did for ours. This is not an emotional sentiment, nor one intended in anyway to minimize the standing of George Washington, who, all in all, was the greatest man that ever lived. The task of General Diaz has been much more difficult than was that of General Washington by reason of the difference of material with which they had to work. When General Diaz became president, Mexico was at the lowest ebb, morally, finan-

cially and politically. There was little law and less order. Brigandism was universal. Life and property were safe nowhere in the country, and honest men were in despair. Now all is changed. Peace reigns within her borders. Prosperity blesses the people and wealth multiplies. Immigration is pouring in and her waste places are being reclaimed. An entire generation has grown up accustomed to fair elections and what is really of more importance, accustomed to abiding the results of the ballot box instead of appealing to the sword. And this is almost entirely due to the work of General Diaz. Of course he has had able and loyal coadjutors, but the very fact that he selected such men is only another evidence of his wisdom. He has accomplished a great work. Modern Mexico is his monument and it is a glorious one. It is really a pity that General Diaz cannot live forever and be president all the time. Latin Americans need a strong hand to govern them—a sort of a Diaz hand.

A BETTER DIPLOMAT

POPE LEO was a more successful diplomat than President Roosevelt or John Hay. He once induced the Czar of Russia to receive a petition that the Russian government had returned. One of the last acts of Pío Nono was to send to Czar Alexander the strongest dispatch denouncing the cruelties inflicted on Catholics in South western Russia. The Czar kept it a little while and then sent it back to Rome without note or comment. When the dispatch came back from St. Petersburg another Pope was at the Vatican. Leo XIII seized the opportunity with his usual tact. Taking advantage of the fact that the Czar's silver anniversary of his accession to the throne was at hand, he ignored the returned dispatch and wrote a most appreciative letter of congratulation, wishing the emperor all good fortune and prosperity. Then as a kind of postscript he pleaded earnestly and pathetically for the persecuted Catholics, saying everything and more than Pius had said. The result was that the Czar was charmed and the petition was cordially received. Roosevelt and Hay have only succeeded in getting a refusal from Russia, but trade concessions in Manchuria may compensate for that failure.

RENO WINS OUT CARSON LOSES

(Continued from Page 1)

have done better, but his instructions were to give the next rider a chance to tack on. By some inconceivable concatenation of circumstances the watches gave G. Hearther a few seconds better time than Mr. Hart, but the difference was probably made up in the fact that Hart rode his fifth mile while Hearther was going his fourth.

The crowd was a little afraid of the next relay for an entirely untired man, F. Dubois, was up against A. Roberts, the swiftest short distance man from Oakland. Dubois rode bravely and well, but he found it impossible to tack onto a man who made a mile in 2:15 and did it in spurts. Roberts darted ahead and kept ahead. In fact at one stage in this relay Reno was less than two-thirds of a mile in the lead. Roberts was nearly a dead one when he finished. He was unable even to bow acknowledgements to the thunders of applause that were sent down from the appreciative grandstand.

Jap Hart, one of the good old standbys of the Reno wheelmen, wondered where he was at when E. Hearther ran away from him. Jap plugged along at the gait that usually not only holds his antagonist down, but makes gains. And here was this California Dutchman running away from him. Jap don't understand it yet. There is a faint possibility that the Oakland boy was riding the race of his life. His appearance indicated it when he got off his wheel. His 12:37 looked good in the face of the breeze. Jap rode within fifteen seconds the fastest time made by any of the Renolites.

The crowd felt like leaving. There seemed to be no chance that there would be a finish between Carter and Smith. The speedy sprinter was too far behind his man. But the six seconds he gained in the first mile, ten in the second and 21 in the third put a different complexion on the case. There was a prolonged yell when Carter got the Oaklander at the end of the back stretch. Here was Reno with a lead of a mile and a chance to win the sprint. Smith proved a good fellow and allowed the next mile to be a slow one in order that Carter might recuperate, but the hard riding of the first three miles proved a little too much for Mr. Carter. He rode like a demon down the home stretch, but came out a wheel length behind. If the tape had been a few yards further the outcome might have been different, for Carter had to back pedal several hundred yards to get his machine slowed down. Smith was loudly cheered by the spectators, hundreds of whom had flocked down to the track.

Following is the time made by the riders: Oakland—J. Williamson, 14:39, Sam Hancock 13:52, G. Bergner 13:16, J. Hurst 13:20, E. Holden 13:25, H. Hancock 14:00, G. Heather 13:24, A. Roberts 13:03, E. Heather 12:37, A. T. Smith did not finish. Reno — G. Kornmeyer 14:39, Ole Packham 13:35, Art Packham 12:58, D. H. Updike 13:05, G. Johnson 13:02, W. Kornmeyer 13:08, W. Hart 13:33, F. Dubois 13:39, J. Hart 13:12, A. Carter 13:49.

After the race there was a band concert by the Reno Wheelman club band and a stag party followed by a banquet.

As soon as the race was over and the racers had donned street attire a season of fraternizing began that is not over with yet, for the Oaklanders can't be chased out of town by the cops and even if they could the Reno boys would follow them and bring them back.

There is no use talking, the Oakland team is composed of good fellows, clean riders and gentlemen. There was not a kick nor a cry from them and they certainly are appreciated for their conduct.

Furthermore, it must be said that they outpointed the Reno riders in that they made the fastest mile, the fastest relay and won the final sprint. Captain Moffat, who is still here, said to a Journal reporter last evening: "Our boys have nothing but the kindest words to say of the town, its people, the Reno Wheelmen club and the relay riders. You beat us fair and square, because you have the best riders. I don't believe a team could be gotten together in the west that could come here and beat you."

Fraternal Celebration

Reno is up against a serious proposition. It can't get rid of the Oakland Wheelmen. A couple of the bunch drifted back to the bay yesterday, but the balance are still here. Some evil-minded lot of Wheelmen have stolen their baggage, money and railroad tickets and are determined to allow none of them to escape. Every Oaklander is kept constantly surrounded by a strong body guard. The Oaklanders wouldn't do a thing to the Reno team if they ever went below.

(Continued from page 1)

like a farmer," says Wing. "I had everything my own way, just what I wanted, and should have won the race and the championship for Carson City easy. I will never ride a wheel again."

The race was the prettiest one ever held on the coast according to many followers of the sport and the unexpected result only added zest to the day's pleasure. Everybody had a good time and as there was not \$50 bet on the whole race; no one was injured one way or the other by the result. The band headed the visiting wheelmen and all attended a little banquet in honor of the occasion. The Sacramento boys were earnest in their thanks for the treatment they received and insist that they will have Carson down there soon.

AN IMPROMPTU AFFAIR

Wheelmen's Stag Party Was Enjoyed
By All Present

The Reno Wheelmen entertained themselves and a few score visitors Sunday evening at an impromptu stag party in honor of the Oakland Wheelmen. It was a very pleasant event, especially to have been arranged on such short notice.

The events on the program were mostly of an athletic order. The Stickle brothers gave an exhibition in wrestling, after which Abe Steckle and C. A. Hart, both of whom have won honors at this sport in university athletics, wrestled three exciting rounds without a fall.

Eddie Lunsford and Herbert Conway sparred three snappy rounds, giving and taking right merrily. They put up a very scientific exhibition.

There was a touch of professionalism when Gene Pendergast and Louis Payne entered the ring. Both are retired coast champions and the spectators were greatly excited as the three bloodless rounds progressed.

Music was now on the program, then a little oratory, a dip in the swimming bath and light refreshments. By the way it would not be amiss to speak of the entertainment furnished by the band. The boys gave a splendid concert, not only at the clubhouse, but at the track.

THE FIRST MILL WITH UNLOOKED IN THE BIG CAMP

Comprehensive Review of Development Work in a Number of Tonopah Properties as Told by the Miner in Its Latest Issue

Big Mining Enterprise — Superintendent Colcord has completed the purchase of a 40-stamp mill for the purpose of working the ore of the mines owned by the Consolidated Esmeralda Mining Company, about 13 miles from Hawthorne, and it is expected to have the mill running by next January, says the Enterprise. The plant purchased was erected at Jordan, sixteen miles from Bodie, a number of years ago, but was not used much, and includes five power drills, air compressor, two rock breakers and a complete hoist plant. About 230,000 feet of lumber has been arranged for. The company will build a small town of its own at the mine and mill and will offer special encouragement to married men with families to accept employment with them.

Tin at the Enterprise—The Enterprise Mining Company has found what is believed to be tin at their mine at Lone Mountain, about four miles south of Burrel Springs. The shaft is down 30 feet, at which point there is a large ledge, with no walls in sight and carrying values as high as \$80 in silver and copper. Within the last few feet, the ore has shown a white metal, which on being tested by local assayers proved to be tin. Samples of the ore have been sent to San Francisco for quantitative assay, to determine whether the metal is present in sufficient quantity to pay. The formation is similar to that in which the great tin mines of Cornwall are situated, being lime and granite, associated with copper, the granite preponderating.

The Golden Gate—Early in the week the surface flow on the Golden Gate ground was passed through and the blue porphyry capping was entered. The management supposed that it would take considerable time to pass through this, as was the case in nearby mines, but the white porphyry was reached within twenty-four hours, and this in turn was passed through the next day, and the shaft is now in the pink lode porphyry of the district, at a depth of 90 feet. It looks as if the old surface down in that locality were much closer to the present surface than in the territory skirting Mt. Odile, and there is an outcrop of quartz which has all the appearance of being a fine fissure vein carrying values.

Eutopia—Work has been resumed on the main tunnel. An examination of the smaller veins cut in that tunnel led to the belief that the main vein was but a short distance, and a branch tunnel was started, which encountered the main vein after running about 10 feet. Twelve feet of ore has now been opened up, all of which horns gold, besides carrying good values in silver.

The Esperanza—The work which was begun last week under the contract to sink 240 feet is progressing rapidly and satisfactorily, the incline now being down 70 feet. The ledge, which was 2 feet wide at last report, has increased to 2 1-2 feet and carries high-grade ore clear across. The incline is now taking a course about 35 degrees from the horizontal.

Florence Extension—President Fleming left town Tuesday morning with a force of men to open up the property, and work will be pushed with energy from now on. The prospect shaft, which is 30 feet deep, will probably be continued.

The Valley View—The great ledge was encountered this week in the north crosscut on the 610 level, and it is as strong and carries as good values at that point as on the upper levels.

The North Star—The shaft is down 930 feet, and the bottom is full of bunches of low-grade quartz. Cross-cutting will begin at 950 feet, which point will be reached next week.

Morr Silver—The incline is down 50 feet, and a tunnel has just been started to strike the vein. Work is being pushed vigorously at both points.

Cooked to a Turn
A pussy cat that made its happy home in the sub-station of the Nevada Power, Light and Water company, yielded up its life the other day. One of those diseases to which feline flesh is prey, namely fits, fell upon Madame Grimalkin and she performed several acrobatic feats in which she lost one of her lives. The other eight were snuffed out in rapid succession as she made a flying leap and landed astride a 20,000 volt wire. When the current was switched off, the cat was cooked brown and tender.

An Early Morning Fire Does Several Hundred Dollars' Damage to a Resort in the Tenderloin District. No Insurance On

An alarm was rung in from box 5 shortly after daylight yesterday morning for a fire in the tenderloin district. The blaze was in the Mint saloon, a building owned by Ida Robinsons. Messrs. Scott Reynolds and Bert Downing conduct the saloon. The fire was difficult to fight because it started between the ceiling and roof and could not be reached except by cutting holes in the roof and flooding the building with water. The place looked like a wreck, but the loss is not total. There was no insurance, the policy having run out only a few days before the fire.

A Great Agency

We Have Secured Control for This City of the Fulton Compounds, the Only Things Known to Medicine That Cure Kidney Diseases in Both the Primary and Secondary Stages.

The kidneys are not sensitive and the disease is sometimes fastened and already chronic with the very first symptoms. If it has hung on eight to ten months it is surely chronic. In either case why take chances? Why not take at first the only thing known that cures kidney disease in the chronic as well as the primary stages. The Fulton Compound, by permission, is especially valuable for its incurability was doubly confirmed by consulting physicians, and after recovery under the Fulton Compound the recovery was also doubly attested. On May 1st, 1902, the son of R. G. Pell, the manager of the Pacific Coast Biscuit Company of Second and Folsom streets, San Francisco, was declared by the family physician to have chronic kidney disease and incurable. Another physician was called in and confirmed the diagnosis. The whole body was swollen with dropsy, and a fatal termination looked for. The Fulton Compound was then turned to as the only hope. On September 15 the dropsy had disappeared and the boy was well, and after double examinations the physician declared the recovery complete and gave Mr. Pell a written report which he now has.

Judge G. A. Cavanaugh, the Police Judge of San Francisco, also attests the recovery under his own observation of a friend of his who also recovered when the case (chronic Bright's Disease of the kidneys) was well known to be incurable according to all medical authorities. Up to the advent of the Fulton Compound medicine knew nothing that would cure kidney troubles after they became chronic. About nine-tenths of all cases are now curable, even after they have developed into the dreaded chronic forms of Bright's Disease and diabetes. No statements are published or invited except from chronic cases that, like the above, are incurable by all other known medicines. If your kidney trouble is recent Fulton's Renal Compound will cure it quickly. It is of over eight to ten months standing it is the only thing known that will save your life. John J. Fulton Co., 409 Washington Street, San Francisco, sole compounders. Fulton's Renal Compound for Bright's and Kidney Diseases, \$1; for Diabetes, \$1.50. Free analyses made for patients. Send for pamphlet: "We are the exclusive agents in this city."

LOCAL MINES AND MINING

PROGRESS OF AN IMPORTANT INDUSTRY IN NEVADA.

New Discoveries, Development Work, Shipment and Reduction of Ore Reported From Every County.

Joseph L. Giroux, general manager of the United Verde Copper Co., of Jerome, Arizona, and president of the Giroux Consolidated Mines Co., of this place, accompanied by a number of other gentlemen who are associated with him in the development of the Pilot Knob mines, are expected to arrive here on Saturday.—News.

There has been considerable activity in mining circles here this week, says the Ely News. Thirty claims have been tied up for nine months for a figure ranging between \$75,000 and \$100,000, the first payment of which amounting to several thousands, is payable on October 1st. Other smaller deals are still on the table.

Friday an assessment of 25 cents per share was levied by the Con. Cal. & Va. Co.

The most significant ore shipment from this station in a good many years was two tons of nickel and cobalt ore sent by Wells, Fargo & Co.'s express Tuesday to Trenton, New Jersey. A special rate was given on this ore and cost \$320 for the 4000 pounds.—Lovelock Tribune.

Bullion valued at \$3000 was shipped from the Nevada Chief mine, near Yerington, last month.

Iron ore is being shipped from a mine near Palisade, Nev., to one of the large Salt Lake smelters for flux.

Articles of incorporation of the Grand Deposit Copper Co., which was organized in Augusta, Maine, on the 5th of July, were filed with the county recorder this week. The capitalization is \$1,000,000 divided into as many shares of the par value of \$1, and the holders whose place of residence is not given are: President, John Station; vice-president, J. Seaver Page; secretary, Edward Caswell; treasurer, Pierre De P. Rickette; clerk, T. E. Burrell. The company recently purchased the Grand Deposit group of copper mines at Muncy creek, this county, and upon which Superintendent McCaffrey is now vigorously prosecuting development work preparatory to the installation of heavy machinery for the reduction of the ore.—Ely News

At Caliente assays ranging as high as \$200 are now being obtained. Samples showing free gold are common. If the prospects continue to hold their own with depth, Caliente is destined to be a flourishing mining as well as a railroad camp.

At Eagle valley district the Nevada Newport Mining Company will soon have a mill, and the Mountain View Company will soon place its affairs in shape. The ore vein in the Iris mine continues and development work proceeds.

Mountain City, Elko county, is enjoying a mining boom. Superintendent Paxton is overseeing the erection of a mill and also looking after the company's interests on Bull Run mountain. One hundred men are employed. The company evidently means business.

Messrs. Colcord, Roberts and Parr went to Copper Mountain Tuesday and inspected the 40-stamp mill at that place. It is rumored that the mill will be purchased and moved to the Hawthorne district.

TO SOLICIT FOR FUNDS

Persons Authorized to Receive Donations for Labor Day Celebration

The finance committee of the Labor Day celebration held a meeting Sunday and appointed the following to solicit funds for the celebration: Commencing on the west side of Virginia street and extending west, P. J. Shea and John Mawhinney; commencing on the east side of Virginia street and extending east to the Reno brewery, E. A. Lindgreen, F. E. Cheek and O. A. Kinkle; Wedekind mining district, Chris Seeland and J. W. Trotter.

The above mentioned are the only authorized persons to solicit for the celebration. The names of all persons donating and the respective amounts will be published, together with an account of the receipts and disbursements.

BRIEF RESUME OF NEWS FROM ALL THE COUNTIES.

Original Items of Interest and Short Clippings From Home Exchanges Reflecting the Day's Doings.

It is reported that in the very near future one of Carson's young society belles will wed a wealthy Virginia City young man who graduated from the Nevada University with the class of '99.—Gardnerville Record.

The first tunnel on the railroad cut-off near Osini, Elko county, was completed last week. It is 3000 feet in length.

Prof. Gregory has been elected principal and Miss Lillie Lothrop assistant of the Dayton school.

It is understood that T. E. Rickey has purchased the interests of Frank Golden and Dave Ryan in the State Bank and Trust Company of Carson.

The dispatches state that the government is trying to divide up the work on the big canal from the Truckee to Carson sink. This would hasten the work. Many inquiries are being received about taking up land under this canal.

Peter Pavella was drowned in one of the reservoirs at Blue Lakes last week.

The Angus says the hay crop in Lovelock valley is the finest in quality and quantity ever harvested there.

The Appeal says the earthquake shock reported at the lake was nothing more serious than a tumble taken by a guest at the Tahoe tavern when presented with his bill.

Eugene Galland is a spotted fever victim at the Winnemucca hospital. Bob Stewart denies that he has disposed of his business interests at Sodaville.

James McLaughlin died suddenly at Tonopah last week of lung hemorrhage.

The White Pine News denies that the auto line between Ely and Wells is a failure.

John Breen, one of the survivors of the Donner party, died in San Benito county, Cal., last week.

John Gibbons, a pioneer Nevada stage driver, died in the Elko hospital last Friday.

Superintendent Kyle will ship through Wells, Fargo this evening a gold bar valued at \$3,499.70, the returns from 281 tons of Silver Hill ore worked at the Pollard mill.

A human skull of remote antiquity was recently found in a natural cave in White Pine county.

THE FRATERNAL BROTHERHOOD

All members and visiting members of the order are requested to present themselves at the parlors of the Riverside Undertaking Parlors, Manning Building, with their certificates on Tuesday evening, July 28, as the Supreme Vice-President will be here to inspect the same. WASHOE TO SOON HAVE A FINE HOSPITAL

Contract Let to Erect a Commodious and Modern Structure to Meet Constantly Increasing Demand for Suitable Quarters

The proposed county hospital has gotten beyond the probability point. The County Commissioners in regular session yesterday morning took up the bids for the construction of the new building and let the contract to Burke Bros. and Schaff. The amount of their bid was \$21,000.

Plans for this building were prepared by Contractor Curtis and, together with the specifications, were accepted by the board. The building will be an ornament to the city and will certainly be a better place to care for the infirm than the rickety old building now in use, and which is greatly overcrowded. Work on the new structure is to begin as soon as possible.

SUCCESSFUL INDUSTRY

Over Twenty Saloons Handling Sierra Lager

Reno lager is an experiment that is proving a successful one. The Reno Brewing Company has already spent upwards of \$20,000 erecting a plant to manufacture beer and its Sierra lager has been placed on the market. It takes well and is being called for universally, especially by union men, for the manufacturers of the beer are all members of the Brewers' Union, as are also those of the Elite brewery, the other beer making establishment in this city.

A visit to the Reno brewery yesterday by a Journal reporter resulted in the discovery that the proprietors are not resting on their ears but are adding daily to the capacity of their plant. Several additional buildings, including a bottling works, are in course of construction. The bottling works will be in operation in about three weeks.

The company is contemplating the erection of a malt house. The farmers will be encouraged to raise barley, which will be purchased and made into malt for use by the Reno Brewing Company and also to be sold to other breweries in Nevada and the mountain counties of California.

HIVE OF INDUSTRY

Nevada Meat Company Rushed With Orders Every Day

Superintendent "Jack" Holcomb was too busy yesterday to talk to The Journal's representative and the latter roamed at his own sweet will through the big establishment, getting in everybody's road and being cussed at for the same.

He managed, however, to elicit the fact that yesterday was the busiest day in the history of busy days that this new industry is enjoying. To state how many thousands of pounds of fresh and dried meats were being shipped daily would be a breach of confidence, but the figures are really something immense.

The cleanliness of the establishment and the up-to-dateness of the methods employed are the best advertisements that the company could have. There are no secret processes and no portions of the establishment to which visitors are not admitted. The company has been compelled to enlarge and the proposed additions will double the present capacity.

Larger Quarters

Last evening the committee in charge of the Labor Day celebration found that its hall in the Bank of Nevada building is too small for the purpose and decided to meet hereafter in Ritters hall, corner of Sixth and Sierra streets. The meeting next Saturday evening will be a very important one and it is desired to have representative from all the unions in the state.

Russia Means Business

Special to The Journal: PEKING, July 27.—Russia stops the exports of wheat from China to Japan through new Chwang. She believes Japan is buying war supplies of food. Russia also places a naval officer in command of armed boats on the Liao river. This indicates that Russia does not intend to leave new Chwang.

One Killed, One Wounded and Balance Escape. No Officers Injured. The Chase Continues and Hundreds Are in Pursuit

PLACERVILLE, Cal., July 27.—A party of escaped convicts was overtaken by the officers near Pilot Hill at 7 o'clock tonight and a fight ensued. Convict Howard was killed and a negro named Seavis wounded. Two more of the party took to the woods. One of the officers were hurt. They were not strong enough to effect a capture. The pursuit continues. A company of militia at this place is on the trail in company with half a hundred deputies from five counties.

RELIANCE THE BEST BOAT

Yacht Chosen to Dispute Lipton's Effort to Lift Cup

Special to The Journal: NEWPORT, July 27.—After today's race between the Reliance, Constitution and Columbia, in which the former boat again demonstrated its superiority over the other two, the challenge committee of the New York Yacht Club selected the Reliance as defender of America's cup. It was to discontinue trial races. Morgan, of the Columbia, and Belmont, of the Constitution, are perfectly satisfied with the choice. All are of the opinion that the Reliance is the fastest boat.

Condensations of Dispatches Mirroring Yesterday's Happenings in This and Other Lands

In a shooting affray at Arlington, twelve miles south of Rolla, Sunday, four persons were wounded and two of them will probably die.

Arrangements have been completed for the formation of the National Coal and Coke Company, with \$5,000,000 and \$2,500,000 in bonds, which will practically take place of the Frick Coke Company in the general cooking business, since the latter has practically withdrawn from the market.

Everett E. Pillsbury, aged thirty, a job printer, his two young children, and Miss Carrie E. Stevens, aged about twenty years, of Frankfort, Me., are supposed to have been capsized and drowned while in a sail boat in the harbor when a squall struck last night.

Eighteen or twenty prisoners made a break at Folsom between 7 and 8 o'clock yesterday morning, taking with them Warden Wilkinson, his grandson, Harry Wilkinson, captain of the guard Murphy and two other officers. Guard Cotter was mortally wounded by one of the prisoners. Nearly all the sheriff's force and county constabulary are searching for the prisoners who secured a number of rifles and ammunition from the prison armory before they left the prison. Company H, of the national guard, which is the Placerville company, commanded by Captain Charles A. Swisher, has been called out and is now forming at the armory to await such orders as may be received.

HARVEST SALE

At 8 a. m. today we start the greatest mercantile event this county has ever known. We call it a "Harvest Sale" for it is a harvest of bargains.

It is a fiesta for housekeepers, a chance to reap the benefits of months of careful gathering, an opportunity to purchase, at a remarkable discount some of the best goods the world produces.

All during summer this bargain crop has been growing. Remnants have been accumulating by hundreds, odd sizes have been springing up and several lines have been waiting in our stock room because they are not as ordered or were received too late. The latter will be sacrificed at the expense of the manufacturer, the remnants and the odd sizes have been cut to less than cost, and the entire store has been turned into one great bargain counter where anything can be bought at almost any price.

Is there anyone, anywhere, who can afford to miss a sale like this? Here are but a few suggestions:
